

London

Suitable as floor tile, available in various shapes – the London collection is extremely versatile. These mosaics are made of unglazed porcelain and equipped with a nonslip-rating (R11/C), meaning this collection can be processed on both walls and floors. The London mosaics are therefore often used for bespoke designs, in which we process these tiles into stunning patterns for hotels, restaurants and private houses. Squared, round, hexagon or rectangular, in multiple sizes: the London collection offers something for anyone!

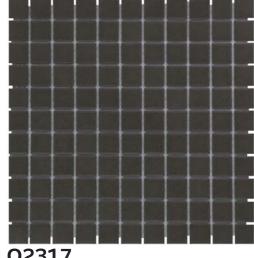

Squared

Squared mosaics lend themselves perfectly for creating straight lines and thus are essential to bespoke patterns. The London collection includes squared mosaics in three sizes, available in various colours.

LO23MIX2 Grey Mix

Rectangular

Rectangular mosaics have a minimalistic and sleek look and thus are perfect for Scandinavian or modern designs. The London collection offers rectangular mosaics in five neutral colours.

Round

Pennyround mosaics have a playful look and enable us to include curves in custom made patterns. The London collection offers pennyround mosaics in various colours and a standard mix.
